Notes to Statements of Financial Position:

- A Net increase was due to proceeds from sales of development project and draw down of loans partially offset against payment for ongoing projects.
- B Net decrease was mainly due to utilisation of deposit towards payment of property, plant and equipment.
- C The land use rights arose from the reclassification from property, plant and equipment to land use rights as required by FRS 40 Investment Property.
- D Net decrease was mainly due to payments of construction costs during the financial year.
- E Net increase was due to draw down of loans to fund ongoing projects.

A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:

(a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and

(b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

Financial year 2015 ("FY 2015") vs Financial Year 2014 ("FY2014")

Group revenue for FY 2015 increased by 9% to \$82.4 million, from \$75.9 million in FY 2014. This was mainly due to higher revenue from Hotel Investment and Management segment and higher income from additional units of development property sold and rental income from Property Investment and Development segment.

Cost of properties sold / consumables used for FY 2015 increased by 67% to \$9.4 million, from \$5.6 million in FY 2014. The increase was largely due to additional units of development property sold and higher consumables used.

Staff costs for FY 2015 increased by 22% to \$23.9 million, from \$19.6 million in FY 2014, largely due to additional headcount from the newly opened hotel in Bangkok.

Depreciation charge for FY 2015 increased by 33% to \$5.2 million, from \$3.9 million in FY 2014. This was due to additions of property, plant and equipment.

Higher interest rates on loans and higher loan draw down caused finance costs for FY 2015 to increase by 72% to \$6.5 million, from \$3.8 million in FY 2014.

Other expenses for FY 2015 increased by 5% to \$26.3 million, from \$25 million in FY 2014. The increase was mainly due to higher operational cost from Hotel Investment and Management segment.

Profit before tax for FY 2015 decreased by 52% to \$18.2 million, from \$38.1 million in FY 2014. The decrease was mainly due to the drop in fair value gain in investment properties of \$13.4 million and operating expenses in the newly opened hotel in Bangkok.

9 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

In the Company's third quarter 2015 results, it was stated that:

Overall visitor arrivals were about 10.2 million in the first eight months of the year which is a decrease of 0.6% year-on-year. Visitorship from China is on the rebound but mitigated by the slowdown from visitors from Indonesia and Malaysia.

A new S\$10 million Experience Step-Up Fund was launched by the Singapore Tourism Board in August 2015 for businesses to develop new tourism experiences to enhance overall visitor experience and satisfaction in Singapore.

The hospitality scene remains challenging with the uncertain global economic outlook, the tight labour market and significant increase in supply of new hotel rooms coming on stream.

The results of fourth quarter 2015 are generally in line with the above statement.

A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Based on latest official figures, visitorship numbers for 2015 is set to reach Singapore Tourism Board's target of 15.1 million to 15.5 million.

Although there are more events planned for 2016 such as the Singapore Airshow, the outlook for the hospitality scene remains challenging with the uncertain global economic outlook, the tight labour market and significant increase in supply of new hotel rooms coming on stream.

Since the soft opening of Amara Bangkok in March 2015 we have reached full operation, and going forward, it should contribute to the performance of the Group.

CityLife@Tampines, a fully sold Executive Condominium which the Group has a 40% stake in, achieved its Temporary Occupation Permit on 3 February 2016. The Group expects to recognise profit from this project from the first quarter of FY 2016.

PART II - ADDITIONAL INFORMATION REQUIRED FOR FULL YEAR ANNOUNCEMENT

(This part is not applicable to Q1, Q2, Q3 or Half Year Results)

Segmented revenue and results for business or geographical segments (of the group) in the form presented in the issuer's most recently audited annual financial statements, with comparative information for the immediately preceding year.

For management purposes, the Group is organised into business segments based on their products and services and the Group has three reportable operating segments as follows:

- Hotel investment and management
- Property investment and development
- Specialty restaurants and food services

Unallocated costs represent corporate expenses. Segment assets consist primarily of property, plant and equipment, inventories, receivables, other assets and operating cash, and mainly exclude investments and deferred income tax assets. Segment liabilities comprise operating liabilities and exclude items such as taxation and bank borrowings. Capital expenditure comprises additions to property, plant and equipment and investment property.
